

## Oral Sedation Pre-Procedure Instructions

Oral moderate sedation is a form of conscious sedation we recommended to ensure your child will have a comfortable experience while in our office. This sedation is administered in liquid form along with Nitrous Oxide (laughing gas); there are no needles involved to administer this medication. Great care is taken to provide a comfortable, safe environment for your child. Because oral moderate sedation is a form of conscious sedation, your child will remain awake during the treatment, but they will feel more relaxed and at ease.

In order for us to confirm your child's sedation appointment it is very important that you speak with a team member from Leap Kids Dental. If Leap Kids Dental is unable to confirm with you at least 2 days prior to your child's appointment, your appointment will be CANCELED. If your child has a cold or cough, please call prior to the appointment.

- The legal guardian of the patient **MUST BE PRESENT** the day of the procedure to sign consents. If the legal guardian cannot be present, **LEGAL** documentation stating the designation of the responsible party must be on file prior to the day of the procedure.
- **NO SOLID FOOD OR MILK AFTER MIDNIGHT THE EVENING PRIOR TO YOUR CHILD'S APPOINTMENT**
- Your child needs to remain in your care for 8 hours before their appointment to verify the eating and drinking instructions have been followed.
- **NO** school or daycare prior to or after the appointment.
- Your child should wear comfortable loose clothes to the appointment.
